SUITS YOUR STYLE

The SL2600 gives you instant, two-way radio communication—without the bulky look and feel of a traditional radio.

- Easily blends with business attire
- Easily fits in your hand
  - 23mm (0.9”)
  - 190g (6.7oz)
- Based on the award winning form factor of the SL1600

DISCREET PRODUCTIVITY

With a virtual keypad and display, the SL2600 gives you a fast and easy way to navigate functions and receive information at a glance.

- Virtual Keypad
  - 4 buttons
  - Customise to vibrate, sound a tone, or stay silent
  - Lights up when in use
- Display
  - 2 line OLED
  - Battery life, signal strength, current channel, and scrolling messages
- Texting
  - Send preset texts

TALK HANDS-FREE

Maintain a smart, organised appearance with Bluetooth® functionality.

- Connect with wireless accessories such as Bluetooth earpieces
- Leverage applications with Bluetooth sensors for indoor location

OVER-THE-AIR UPDATES

With built-in Wi-Fi, IT and radio managers can be more efficient.

- Upgrade firmware much quicker
  - No more connecting cables by hand
  - No more taking radios out of service

READY FOR MORE

MOTOTRBO systems are scalable so your network can grow with you.

- Conventional mode or IP Site Connect
- Capacity Plus Single- and Multi-Site
  - Dynamic trunking mode
- Benefits of dynamic trunking
  - Efficient use of available channels
  - Doesn’t require a centralised controller or dedicated control channel

UNITE YOUR TEAM

Team Communications from Motorola Solutions delivers unified workgroup communications for your front-line and field workers.

- Communicate in an instant
- Communicate without boundaries
- Communicate with added intelligence
